

DEWATERING PROJECT SOLUTIONS FOR KALPUMPS SALES AND SERVICES

Client Profile

Kalpumps Sales and Services, is a pump solution expert based in Kalgoorlie, Western Australia, that offers pumping solutions to the mining and industrial sectors in local and global mining regions in Indonesia, Vietnam, Papua New Guinea, and Africa.

The Problem

Kalpumps Sales and Services always strive to provide its customers with the right product. As such, Kalpumps contracted Coerco to manufacture and supply dewatering products to be added to their wide range of products.

The Solution

Coerco's unique delivery process removed the hassle for Kalpumps in outsourcing dewatering solutions. And apart from manufacturing poly dewatering products, Coerco also worked with Kalpumps for extended after-sales support to make sure the products were performing up to standard.

Summary

Location

Kalgoorlie, Western Australia

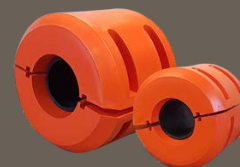

Client

Kalpumps Sales and Services

Products Used

Multi Float® Pipe Floats

“

The advantage of poly is it's a lot easier to work with, easier to transport, and it lasts a lot longer. A lot cheaper, too.
